### Prepare the Milk

FOR A SINGLE, SMALL LATTE YOU WILL NEED ABOUT 6 OUNCES OF MILK

- A good rule to follow is that you will need 6 ounces of milk per ounce of brewed espresso.
- Nonfat milk is the easiest to make foam but doesn't taste as decadent as milk with more fat.
- 2% milk produces foam nicely, while adding a little bit of creaminess to your drink.
- Whole milk is the hardest milk to foam, but makes a more flavorful latte due to its higher fat content.
